

## Removing barriers and administrative burden

Improving patient access to care

careviso solves today's healthcare problems in real-time. Our team navigates the complexities of diagnostic testing, creating innovative technologies that improve the patient care experience.

**We provide efficient solutions for physicians allowing them to focus on patient care rather than paperwork.**

### Simplicity

Through a simple enrollment, careviso helps your office with complex paperwork associated with lab PA's and patients' eligibility.

### Security

careviso offers a secure HIPAA compliant portal. Our systems and controls meet SOC 2® criteria and all partners have a BAA.

### Speed

All services are performed with a human assisted AI expert system for optimal efficiency and accuracy.

## Our Advantages

- ✓ We have expertise in Oncology, Pathology, OB-GYN, and Neurology specialties.
- ✓ Our single access portal offers visibility of all the cases careviso is processing.
- ✓ careviso offers Benefits Investigations, Prior Authorizations, and Financial Transparency.
